EDUCATION

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Bachelor of Technology in Computer Science(AI,ML)

Lucknow, Uttar Pradesh

September 2024 – August 2028

ACHIEVEMENTS

- Solved **200+ Data Structures and Algorithm** problems across platforms including [LeetCode](#) and [Coding Ninjas](#).
- Proficient in **C++** with strong understanding of Data Structures and Algorithms.
- Maintained an active **GitHub** repository with coding projects and implementations — [GitHub Profile](#)
- Consistently practiced algorithmic problem solving focusing on arrays, recursion, hashing, and dynamic programming.
- Built multiple web development projects using HTML, CSS, and JavaScript.

CERTIFICATIONS

- **Google Introduction to Generative AI** — Completed a foundational course by Google covering concepts of Generative AI, large language models, and real-world applications of AI technologies. [View Credential](#)
- **Deloitte Cybersecurity Job Simulation (Forage)** — Identified potential security risks and applied basic cybersecurity practices. [View Credential](#)

PROJECTS

RepoLens AI | *Next.js, React, Tailwind CSS, TypeScript, Gemini AI, GitHub API*

May 2026 – Jun 2026

- Built a full-stack Next.js application that **analyzes GitHub repositories** using **GitHub APIs** and **AI-generated** engineering insights.
- Implemented **repository health scoring, risk assessment, hotspot detection, contributor analytics, and commit activity visualization** using TypeScript and Recharts.
- **Integrated Gemini AI** for repository summaries, evolution timelines, and actionable recommendations.
- Deployed **production-ready application** on Vercel with secure environment variable management.
- Maintained the project using **Git and GitHub** for version control and project management — [GitHub URL](#).

Vet Help | : *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, EmailJS*

September 2025 – October 2025

- Developed a **responsive web application** to assist users in finding veterinary help and accessing essential pet healthcare information.
- Implemented an **appointment booking system** that allows users to schedule consultations with veterinarian through an interactive form.
- **Built dynamic user interactions** using JavaScript including form validation and responsive UI behavior.
- Designed a **clean and mobile-friendly interface** using HTML and CSS to ensure accessibility across multiple devices.
- Maintained the project using **Git and GitHub** for version control and project management — [GitHub URL](#).

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript, HTML, CSS, Node.js, React.js, Next.js, TypeScript, Tailwind

Developer Tools: Git, VS Code, Visual Studio, PyCharm

Libraries: pandas, NumPy, Matplotlib

CS Core: Operating System, Object Oriented Programming, Data Structures and Algorithms

Soft Skills: Leadership, Team Work, Public Speaking, Event Management, Communication

EXTRA-CURRICULAR ACTIVITIES

- Organized and conducted a **college-level hackathon**, coordinating participants and managing the event workflow.
- Delivered a session for the coding club **CodingBlast** on the **importance and applications of Artificial Intelligence**.
- Served as the **captain of the college football team**, leading the team during inter-college matches
